

# Instructions for Ordering Imatinib ARUP Test (Test Code: 0097101)

## 1. Client Status

- If your facility *is a client* of ARUP Laboratories:
    - Contact your **Send outs Department** to coordinate specimen submission.
  - If your facility *is not a client*:
    - Choose one of the following options:
      - Submit a **client request form**: [ARUP Client Request Form](#)
      - Request a **one-time submission setup**.
      - Ask ARUP to locate a **local client facility** in your area that can send the specimen on your behalf.
- 

## 2. Specimen Collection Requirements

- **Specimen Type**: Serum
  - **Tube Type**: Plain red-top tube (no gel)
  - **Volume Requirements**:
    - Preferred: **1 mL**
    - Minimum: **0.2 mL**
  - **Shipping Conditions**: Ambient (room temperature)
  - **Stability**:
    - Ambient: **5 days**
    - Refrigerated: **5 days**
    - Frozen: **1 year**
- 

## 3. Test Ordering Instructions

- As ARUP's dedicated Imatinib test was inactivated on **2/21/2023**, there is **no specific ARUP test** currently available for Imatinib.
- However, ARUP sends Imatinib testing to **Columbia University**.
- To order:
  - Use **Test Code: 0097101 (Miscellaneous Ambient Test)**.
  - In the **order comments**, include:
    - Test Name: "Imatinib"
    - Destination Facility: "Columbia University"
